Technical Skills

- Programming Languages: C#, JavaScript, TypeScript, SQL, HTML, CSS
- Frameworks: .NET Core, React, Next.js
- Tools and Libraries: VS Code, Figma, Tailwind, Bootstrap, Postman, GitHub, Azure DevOps

Experience

Codestack: Intern

May 2026 – Present

Stackfolio – internal project management application. Contributed to development within an Agile workflow, utilizing Azure DevOps for sprint planning, ticket resolution, merge conflict handling, and pull request completion. Collaborated closely with Project Managers and Development Leads to deliver more features while maintaining code quality.

Projects

Venn (Fullstack):

This is a social scheduling application that allows planning for events with other users based on every user's preferred availability. Using frameworks like Next.js and .Net Core, each user can create and join other created room, compare their availability and find the best time to schedule social events or gatherings.

Inspirational Person:

Created via Next.js and used various components from flowbite react, this website is dedicated to the person whose inspiration and her perseverance drives my growth, strengthens my motivation, and encourages me to pursue my dreams.

Pokémon Pokédex API:

Designed through Figma and built using Vite; semantic HTML, CSS and JavaScript, this website styled like a Pokédex allows the user to search for any Pokémon to see their relevant stats and utilize local storage to save the user's favorite Pokémon in the user's browser!

Education

Codestack Academy: Certificate in Software Engineering

2025 - 2026

Attended a year-long course of developing and learning new technical skills. Honed skills for professional development from creating front-end UI using vanilla HTML, React and Next.js to creating RESTful N-tier and Clean API structures using .NET Core framework and hosting databases via Azure. Worked within a team environment using GitHub for version control, branch workflows and divide and conquer tasks.

San Joaquin Delta College

2018 - 2021

Major: Computer Science

Attended San Joaquin Delta College to work on getting a degree in Computer Science.
